VENTURES

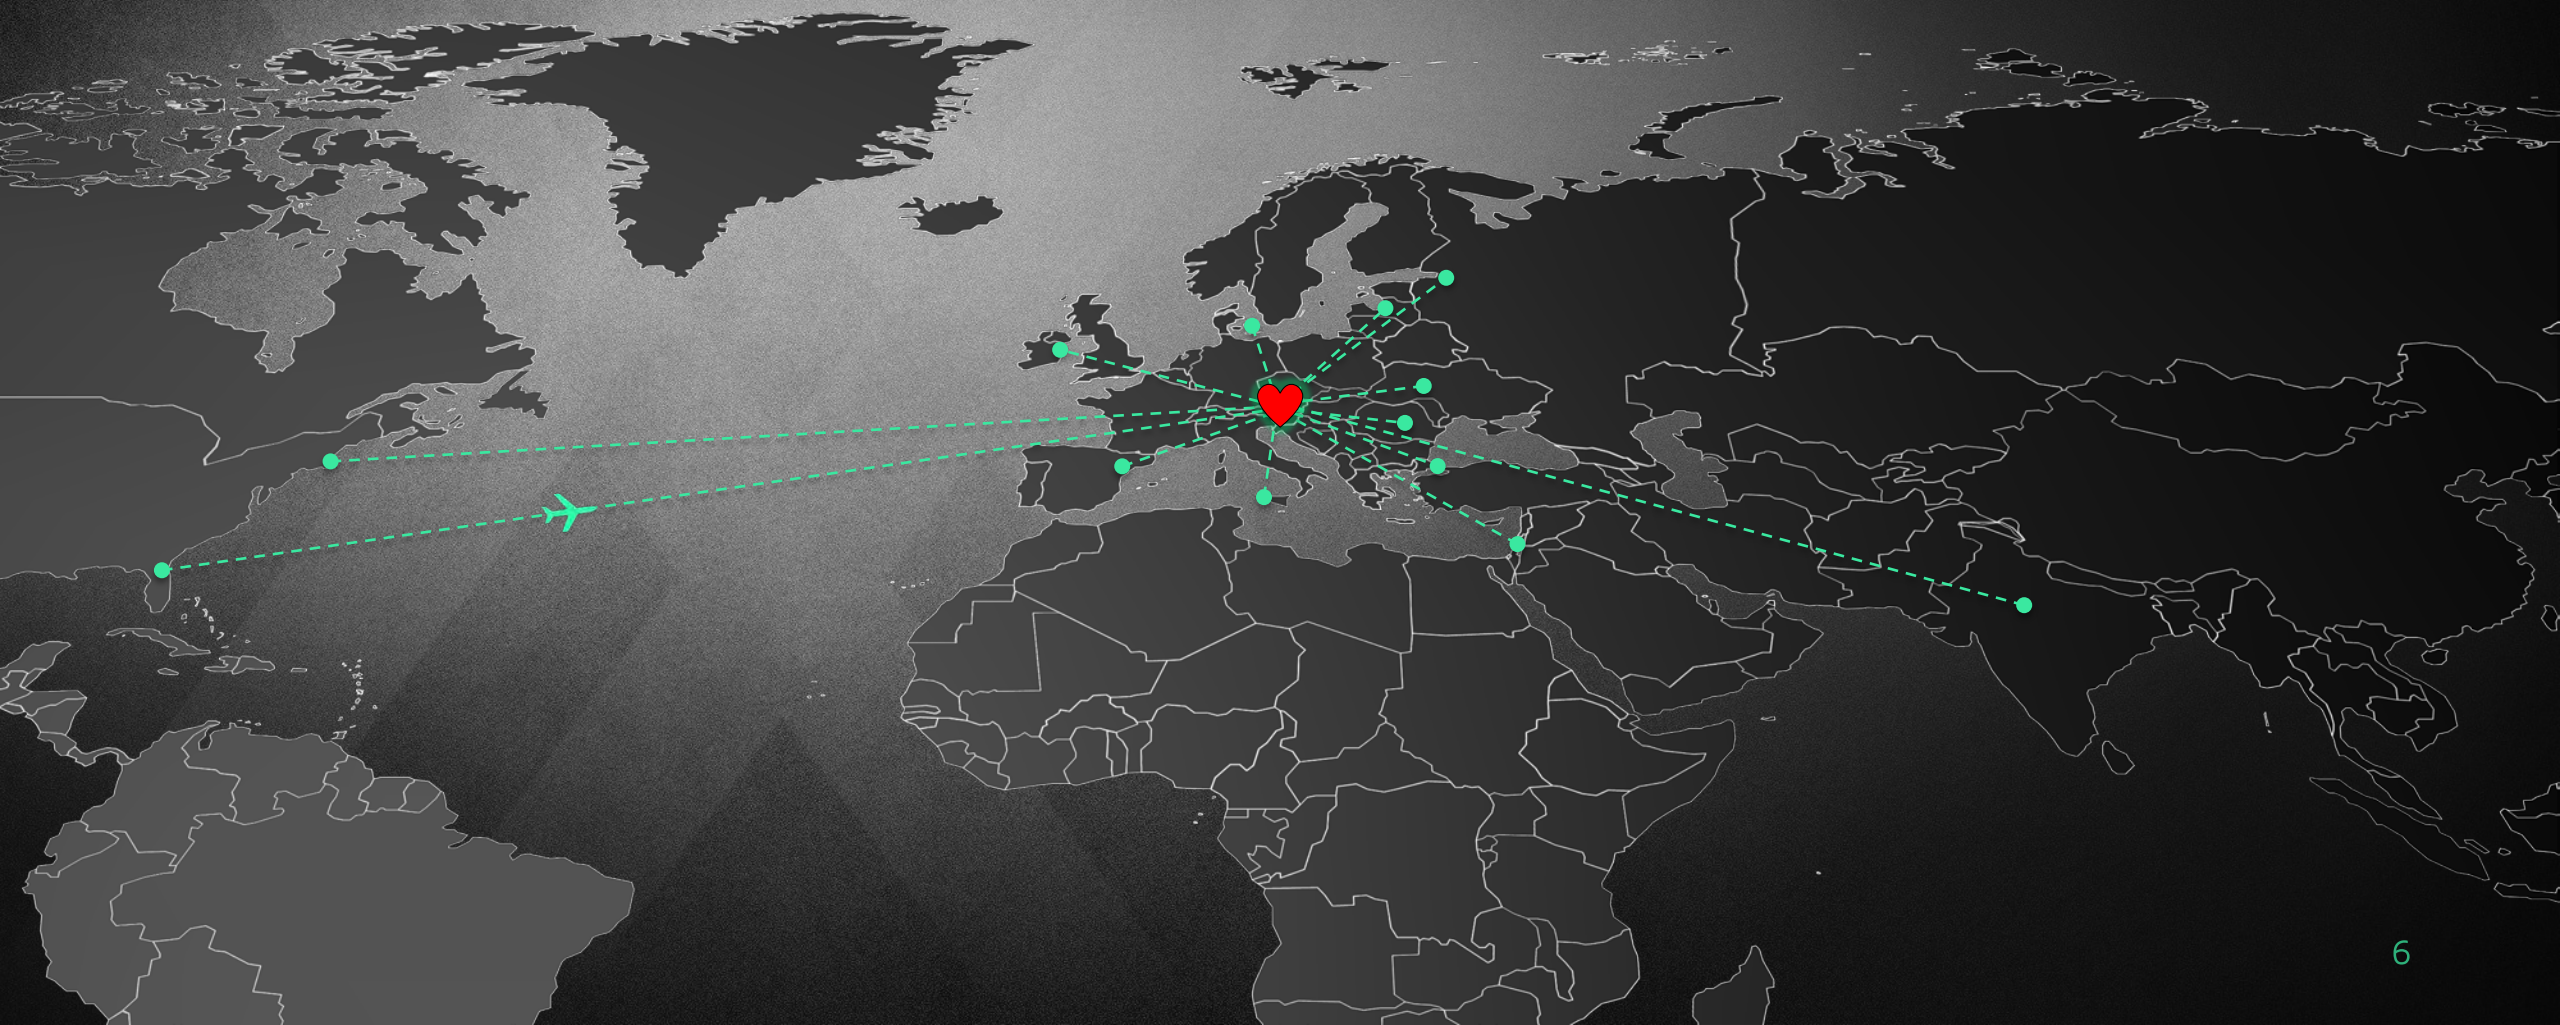

We bring Startups to Vienna

Vienna – heart of Europe & gateway to the east

We bring startups from all over the world with a special focus on CEE to our startup-hub

Deliverables Startups

Match Making

We focus on leading-edge startups within the focus verticals of:

Media – Insurance – Industry 4.0 – Financial Services – Energy & Infrastructure

And the core technologies of:

Artificial Intelligence & Bots, Mobility Solutions, Blockchain, Cybersecurity, IoT

Our network of match-makers will create the perfect fit among startups and world-leading corporates.

Mentoring

Serial founders and top executives provide insight, experience and a valuable network.

Trainings & Individual Coaching

We offer a vast variety of individual coaching in all the areas that startups need (e.g. growth hacking, legal advice, ...)

Inspire & Dine, Technology Breakfast

An event series for startups to discuss what's hot and trending with leading industry experts.

Alumni Class

weXelerate provides continuous support and opportunities to network also once the official 4-month program is over.

(optional: 10-days sprint program for advanced startups)

Additional Value for Startups:

- Sales enablement
- Business development
- Exposure to international investors and VCs
- Collaborations with world-leading corporates
- International top mentors

Additional Value for Startups

Business Development & Marketing

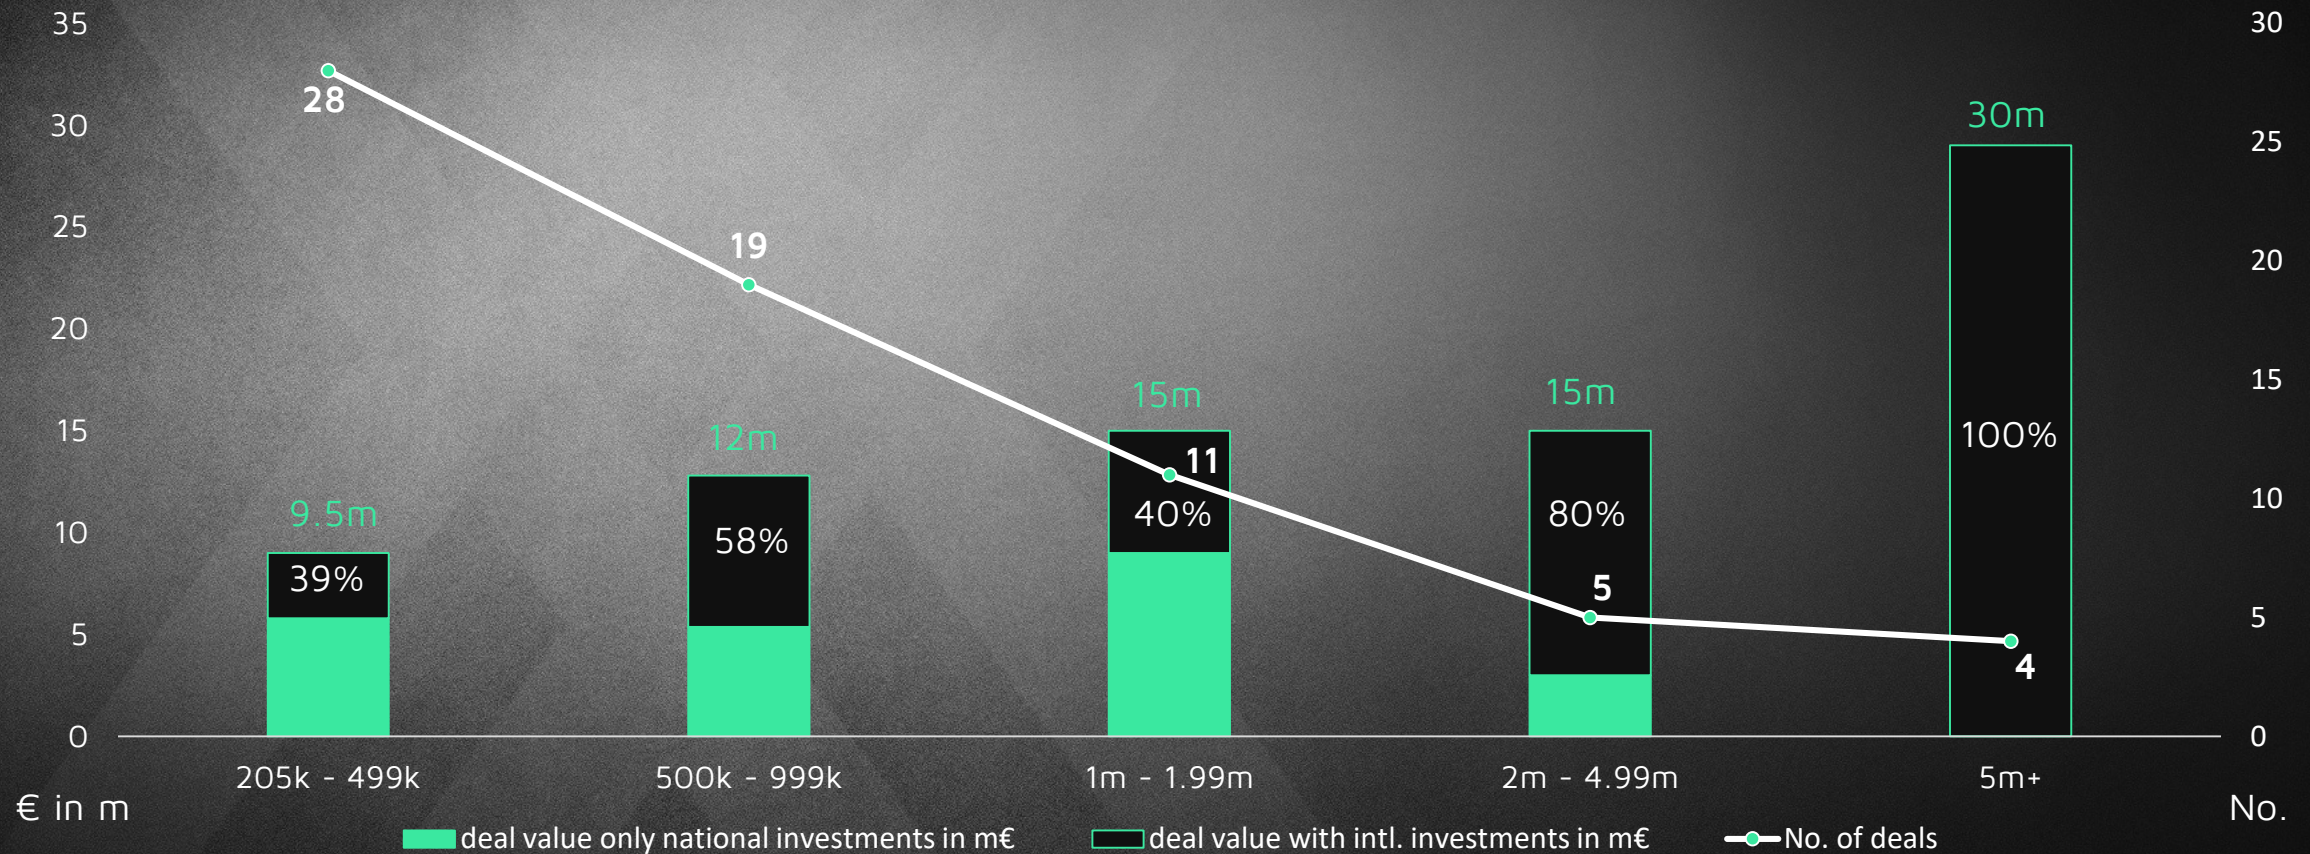

We can help startups with processes such as:

- Start a new project involving any media within the Internet or mobile space
- "Go-to-market" in Western European countries
- "Go-to-product" help you in "translating" your technology into a product or service
- Plan your Internet or mobile marketing strategy
- Develop local distribution channels
- Localize your marketing activities to target specific countries
- Expand your marketing mix within the digital media
- Enhance your online, mobile, New Media, social & video marketing
- Build local awareness to your company & products
- Start a new project involving any media within the Internet or mobile space
